

MOHAN JAISWAL

PROFESSIONAL SUMMARY

Web Developer with hands-on experience in **HTML5, CSS3, JavaScript, Tailwind CSS, Next.js**. Specializing in building responsive, user-friendly websites focusing on optimizing performance and improving user experience. Proven ability to lead front-end development, troubleshoot issues, and collaborate effectively in Agile teams using **Git**. Passionate about leveraging modern frameworks and technologies to deliver high-quality web solutions.

WORK HISTORY

Front End Developer Intern, 08/2024 to Current

The Pet Vibe - Bangalore, India (Remote)

- **Developed** responsive and visually appealing web pages for mobile and desktop platforms using HTML, CSS, JavaScript, and Tailwind CSS.
- **Optimized** page performance, reducing load times by 25%, significantly enhancing user experience and engagement.
- **Troubleshooted** and resolved front-end issues, ensuring seamless functionality across browsers and devices, improving overall user satisfaction.
- **Collaborated** with cross-functional teams in an Agile environment, ensuring smooth project delivery by efficiently using version control systems like Git.
- **Integrated** responsive design elements and implementing SEO best practices, increasing website traffic by 15%.

PROJECTS

thepetvibes.com | [Link](#)

- Implemented interactive UI components and optimized website performance to enhance user engagement.
- Collaborated closely with designers and backend developers to translate wireframes into functional web pages.
- Utilized **Next.js** for building scalable and efficient web applications.
- Managed version control and code collaboration using **Git**, adhering to best practices in software development.

Portfolio Website | [Link](#)

- Developed a responsive personal portfolio website using HTML5, CSS3, and Vanilla JavaScript, showcasing skills, projects, and experience.
- Implemented JavaScript DOM manipulation for dynamic content and used Flexbox/Grid for a mobile-first design optimized across devices.
- Improved page load time by 20% through image optimization and clean, modular code.
- Future updates include a blog section and enhanced contact forms for better user engagement.

Snake Games, Tic Tac Toe & Rock Paper Scissors Game | [Link](#)

- Developed a classic Snake Game and Tic Tac Toe using JavaScript, HTML5 Canvas, and CSS3.
- Utilized object-oriented programming (OOP) for game logic, including real-time scoring, difficulty progression, and collision detection algorithms.
- Designed the game with an intuitive user interface and responsive controls using event-driven programming.
